Transcription notes

1. Typed transcription of a scanned copy of the Hisar Collector Rate list for 2014-2015, issued on 19-05-2014.
2. 320 localities, grouped A to Y exactly as in the original. Serial numbers 1-320 are complete, none missing.
3. A blank rate cell means the original printed '-' (commercial-only or residential-only area) — it is not a zero.
4. Rows marked **Doubtful** (yellow highlight, red remark) carry a figure that looks wrong in the original — usually a proposed rate lower than the previous one, or an extra digit. Verify these against the official record.
5. The original reuses some code numbers (118, 217, 268) and repeats some locality names under different codes with different rates. These are noted in Remarks and left exactly as printed.
