DISCLAIMER: This is an unofficial transcription of the official Hisar Collector Rate list for 2026-2027. Anjani Real Heights Pvt. Ltd. and its owners accept no responsibility or liability whatsoever for any error, omission or discrepancy found in this document. Please check and verify every figure yourself from the official records of the Revenue Department / Sub-Registrar's Office, Hisar, before relying on it or proceeding with any transaction. The village, segment and property-type names in the official PDF are in Hindi; they have been rendered into English here, so a spelling may differ slightly from the original.

COLLECTOR RATE LIST — HISAR — YEAR 2026-2027 (FREEZED)

Final collector rates for 2026, with the 2025 rate alongside for comparison.

FINAL COLLECTOR RATES 2026 — District Hisar, Tehsil Hisar

Rates are per acre for agricultural land and per square yard for residential, commercial and institutional land, as marked in the Unit column. 'Prime' marks a premium pocket within the same segment. Rows shaded green went up in 2026; every rate in this notification is frozen.

Transcription notes

1. Transcribed from the official 'Final Collector Rates for 2026' report issued from WebHalris for District Hisar, Tehsil Hisar (78 pages, dated 31 March 2026).
2. 1547 rate entries across 90 villages and 478 segments.

3. The report prints the 2025 rate next to the 2026 rate, so both years are carried here along with the change between them.
4. 261 entries were raised for 2026; the other 1286 carry the 2025 rate unchanged. Increases applied: +10% on 1 entries, +15% on 78 entries, +20% on 5 entries, +25% on 92 entries, +30% on 28 entries, +40% on 4 entries, +45% on 17 entries, +50% on 1 entries, +60% on 12 entries, +75% on 23 entries.
5. Every entry in the original is marked Freeze = YES, i.e. the rate is frozen for the year.
6. Property sub-types are the revenue classes of land: Nehri (canal-irrigated), Chahi (well-irrigated), Barani (rain-fed), Tal (low-lying), Tiba (sandy/dune), Banjar (waste) and Gair-Mumkin (non-cultivable).
7. Names in the official PDF are in Hindi in a font that does not copy out cleanly. They were recovered from the embedded font and rendered into English, so a segment spelling may read slightly differently from the original — the rates, units and percentages are unaffected.
8. Checks run: no rate is missing, the 2025 and 2026 units always agree, each stated percentage matches the two rates arithmetically, and every row with a blank percentage has an identical 2025 and 2026 rate.
